Cabinet Decisions

Cabinet Approves India's Bid to Host Commonwealth Games 2030

The Union Cabinet has sanctioned India's proposal to formally bid for hosting the 2030 Commonwealth Games, marking a significant milestone in the nation's sporting evolution. If successful, the Games will return to India after two decades, the last being the Delhi CWG in 2010. This decision showcases India's aspiration to become a global sporting hub, leveraging its expanding infrastructure, organizational capabilities, and growing influence in international sports. Hosting CWG 2030 promises long-term benefits by enhancing sports infrastructure, tourism, urban development, and job creation. It offers Indian athletes the opportunity to compete on home soil and inspires future generations toward sports and fitness. More than just an event, the bid is aligned with India's 2047 vision, prioritizing sustainability, green technologies, and inclusive growth. Through this initiative, India aims to set new standards for world-class, eco-friendly, and athlete-focused Games, and to strengthen its ties within the Commonwealth community.

Cabinet Approves Restructuring and Extension of PM SVANidhi Scheme Beyond December 2024

The Union Cabinet has approved the restructuring and extension of the PM Street Vendors' AtmaNirbhar Nidhi (PM SVANidhi) Scheme beyond December 31, 2024, further demonstrating the government's commitment to supporting street vendors as key contributors to India's urban informal sector. Originally launched in June 2020 to counter the impact of the pandemic, the scheme provides collateral-free working capital loans, helping vendors revive and expand their businesses while accessing formal financial services. The extension introduces longer repayment periods, simplified procedures, and a broader lending window, ensuring more vendors can benefit from successive, affordable loans. Those with strong repayment records will continue to enjoy subsidized interest rates and digital transaction incentives, encouraging cashless payments and greater financial inclusion. By strengthening the economic foundation of street vendors, the restructured scheme not only boosts urban commerce and inclusive growth but also aligns with the government's vision of mainstreaming informal workers and advancing the goals of Atmanirbhar Bharat.

Cabinet Approves Multi-Tracking of Rail Projects in Karnataka, Telangana, Bihar & Assam and New Rail Line in Kutch

The Union Cabinet has approved the multi-tracking of three major railway projects spread across Karnataka, Telangana, Bihar, and Assam, along with the construction of a new rail line in Kutch, Gujarat, marking another milestone in strengthening India's railway infrastructure. The multi-tracking projects are aimed at enhancing capacity, reducing congestion, and improving operational efficiency on some of the busiest and strategically significant rail corridors in these states. By providing additional lines, the projects will ensure smoother movement of both passenger and freight trains, reducing delays, travel time, and fuel consumption. In addition to these, the Cabinet has cleared a new rail line in the far-flung areas of Kutch, Gujarat, designed to improve accessibility to remote regions and support local industries, agriculture, and tourism. The project is intended not only to strengthen connectivity for communities in isolated areas but also to contribute to border region development and national security preparedness, given Kutch's strategic location. Together, these projects reflect the government's commitment to creating modern, efficient, and inclusive railway infrastructure, promoting balanced regional development, and laying the foundation for faster economic growth across India.

Industry Developments

Overall

Centre plans Rs.250 bln support for exporters

The central government is considering Rs.250 billion in support for exporters under the Export Promotion Mission (EPM) for the period through 2030-31. The plan aims to provide easy and affordable credit to exporters, especially MSMEs, amid global trade uncertainties following the US 50 per cent tariff on Indian goods from 27 August 2025.
