

INSURANCE FOR ALL **BY 2047** EMERGING OPPORTUNITIES

October 8, 2025 | Mumbai

BACKGROUND

India's vision for Viksit Bharat @ 2047 outlines a transformative agenda for a developed, inclusive, and resilient nation. Integral to this mission is ensuring universal access to insurance, a cornerstone for economic security, social equity, and resilience.

Despite significant progress in financial inclusion, insurance penetration still remains relatively low, particularly among MSMEs, rural populations, and informal sectors. There is an urgent need for a paradigm shift from being a discretionary product to a fundamental social and economic safeguard. In this context, ASSOCHAM Maharashtra State Development Council is convening a strategic program titled *"Insurance for All by 2047: Emerging Opportunities"* on October 8, 2025, in Mumbai. The program brings together thought leaders across the insurance value chain to explore the emerging opportunities and design scalable, tech-enabled, inclusive insurance solutions for all segments of society.

THE PROGRAM AIMS TO DRIVE TRANSFORMATIVE DISCUSSIONS ON :

- Bringing together policymakers, insurers, MSMEs, startups and academia to chart the future of insurance in India.
- Exploring the role of emerging technologies—including AI, blockchain, and data analytics in enhancing transparency, efficiency, and accessibility across the insurance value chain.
- Addressing the unique needs of MSMEs through customized, digitally enabled insurance products, and transforming claims management to foster greater trust.
- Repositioning insurance as a universal pillar of economic resilience and national growth in line with the vision of Viksit Bharat.

WHY ATTEND / KEY FOCUS AREAS

Gain expert insights into the future of insurance in India
