The Associated Chambers of Commerce and Industry of India

INDIA SPECIALITY CHEMICALS CONCLAVE 2026

"Speciality Chemicals for Economic Growth & Job Creation"

21st May 2026, New Delhi

INTRODUCTION

India's chemical sector has set an ambitious goal to reach 1 USD trillion by 2040. Achieving this target not only elevate the industry in India's but also strengthen country position in the global market. India accounts for nearly 20% of the total chemicals and petrochemicals market in India which plays a significant role in country's manufacturing sector. Specialty chemicals are made for specific uses which includes agrochemicals, dyes & pigments, construction chemicals and personal care ingredients.

Over the period India has become a major centre for specialty chemicals because it is cost-effective, has a skilled workforce and improved regulations. Investments in energy, agriculture, pharmaceuticals, textiles, construction and semiconductor industries will further drive the demand for high purity specialty chemicals and gases.

Government policies are also helping the sector grow. Initiatives like Make in India, production-linked incentive schemes have encouraged both Indian and foreign players to manufacture in India. Recent FTA's negotiations have given significant impetus to India exports to specialty chemicals especially to North America, Europe and Asia-Pacific.

Looking ahead the future of India's specialty chemicals industry looks promising. The sector is expected to grow driven by domestic consumption and export demand. With investments in capacity expansion, technology upgrades and sustainability initiatives, India is well-positioned to strengthen its role in the chemicals market. While challenges remain, the industry's long-term prospects are bright. By focusing on quality, sustainability and value-added products, India can further enhance its position as a leading supplier of specialty chemicals.

To discuss Indian opportunity and challenges in this sector, **ASSOCHAM is organizing, India Speciality Chemicals Conclave: "Speciality Chemicals for Economic Growth & Job Creation" on 21st May 2026 in New Delhi.**
