

**LEADERS SPEAK**

**I**t is quite a healthy trend that the states too are joining the Centre in assuring entrepreneurs, both from India and abroad, of improving Ease of Doing Business. Under dynamic leadership of Chief Minister Shri Kamal Nath Ji, who has a rich experience of working at the Centre and the State, Madhya Pradesh should be an attractive place for investment. Things like availability of land, exibility of labour laws and the rules of civic authorities play a key role in ensuring Ease of Doing Business. On all these issues, I am sure, the state leadership would be working hard to ensure easy rules of the game and efficient compliance machinery. ASSOCHAM wishes the Madhya Pradesh Government all the success in further scaling up the investment climate in the state at a time when India needs a great revival of investment. Competition among states to attract investment is a tempting proposition for entrepreneurs. MP needs to be complimented for reaching out to investors with promise of easy business environment.

**B K Goenka,
