6th ASSOCHAM
India Smart Datacentres & Cloud Infrastructure Summit & Awards 2024
Making India a Global Data Hub

Data Center: Strengthening India's Digital Revolution

India emerges as one of the fastest-growing data economies with Data Centers as backbone of a digital revolution. With the increased disruption and digital adoption, business ecosystems are witnessing an explosion of data. The Indian data center market is on the cusp of substantial growth, propelled by the country's digitalization, governmental IT initiatives, and a burgeoning economy. Substantial growth is fuelled by the demands of the IT sector and global capability centers (GCC), the expanding digital economy encompassing social media, e-commerce, digital transactions, online gaming, and streaming services. India is fast emerging as the world's cloud computing and data centre hub. India's adoption of cloud technologies will be imperative to tap into the global cloud market to help enterprises and the industry embrace this opportunity and further the Digital India agenda of Government of India..

ASSOCHAM with its dedicated National Council on Data Center is working extensively with the Central and State Governments for creating platform for industry to discuss on legal, policy & regulatory enablers that are essential to develop the digital infrastructure, promote future investments in Datacenter industry & strengthen Datacenter & cloud business in India.

Under the aegis of this National Council, ASSOCHAM has successfully organised four Editions of Annual "India Smart Datacentres & Cloud Summit". We are glad inform that ASSOCHAM is Coming up with 6th edition of this summit "India Smart Datacentres & Cloud Infrastructure Summit & Awards 2024" with theme "Data Centre: Strengthening India's Digital Revolution." The Summit will be organised in Mumbai on 27th & 28th June, 2024. This year we have introduced the Awards Ceremony with which will feature multiple categories. The awards Ceremony will be to recognise the best people, projects, teams and datacentre companies who put innovation at the heart of this vibrant industry and their achievements in data centre technology, practices, and processes.
