MahaChem 2026

3i **Catalysing Investments, Innovation and Infrastructure**

Wednesday, 9th September 2026   Mumbai

OVERVIEW

The chemicals and petrochemicals sector spans 40,000 products and underpins India's industrial and sunrise sectors, supporting national goals of Atmanirbhar Bharat and Viksit Bharat. Valued at **$300 bn**, the industry is projected to reach **$1 tn by FY40** at ~9% CAGR, contributing **7% of GDP**, **14% of IIP**, **12% of exports**, and attracting **100% FDI** under the automatic route. Despite global overcapacity, trade barriers and geopolitical disruptions, the sector remains resilient.

Maharashtra contributes **19% of India's chemical GVA** and **17% of exports**, anchored by major MIDC clusters such as Taloja, Tarapur, TTC, Mahad and Patalganga. With **3,600+ units** employing **300,000 people**, the State leads in agrochemicals, basic and specialty chemicals. It attracted **$725 mn FDI (2019–22)** and supports responsible manufacturing through CETPs, renewable energy adoption, and strong academic institutions like IIT Bombay and ICT.

Key investment opportunities include integrated refinery-petrochemical complexes; as well as downstream sectors such as: **agrochemicals ($5.5 bn, 8.3% CAGR)**, **food & feed ingredients ($3 bn, 7–9% CAGR)**, **construction chemicals ($1.6 bn, 12.5% CAGR)**, and **battery materials & electronic chemicals** supported by Maharashtra's leadership in automotive manufacturing and EV growth. The State is drafting a sector-specific chemical policy to accelerate innovation and infrastructure.

MahaChem 2026, organised by ASSOCHAM Maharashtra State Development Council on **Wednesday, 9th September 2026 in Mumbai**, aims to position Maharashtra as India's premier chemical hub by catalysing investments, modernising infrastructure, and fostering innovation. The conclave will convene policymakers, industry leaders, investors and researchers around three enablers — **Investment & Policy**, **Infrastructure Readiness**, and **Innovation** — with sessions focused on investment opportunities, world-class chemical infrastructure, and advancing India-centric chemical innovation.

KEY OBJECTIVES

Investment Mobilization: Highlight Maharashtra's strategic advantages and to attract domestic investments & FDI.

Infrastructure Development & Modernisation: Evaluate the scalability and modernisation of existing chemical clusters (focusing on land availability, effluent treatment facilities, logistics integration, and specialized infrastructure); identify new 'plug & play' Chemical Parks along the Samriddhi Highway; and Integrated refinery-petrochemical projects near ports.

Translational Innovation: Bridge the gap between academic and industrial applications through Innovation Parks in Vidarbha and Marathwada by leveraging the State's intellectual capital. These can be on the lines of the successful Venture Centre alongside CSIR-NCL, Pune.

Sustainability & Circular Economy: Encourage green manufacturing, decarbonisation, resource efficiency, renewable energy adoption, and circular economy practices.

Global Partnerships: Enable international collaborations, technology transfer, and investment partnerships with leading chemical economies.

STRATEGIC THEMES

- Investment Opportunities in the Maharashtra Chemicals sector
- Infrastructure to Industry: Maharashtra's Competitive Edge for Chemicals
- Innovation in Chemical Industry
- INVESTOR MEET Idea to Market

Biggest Opportunity to Meet

Benefits of Attending

Glimpses of 1st Edition Chemical Conclave 30 June 2023

Glimpses of 2nd Edition Chemical Conclave 24 June 2025
